187/241 Rattanathibet Rd, Bang Krasor, Mueang Nonthaburi, Nonthaburi 11000

PROFESSIONAL SUMMARY

Results-oriented professional with over 4 years of experience at the intersection of user experience and business objectives. Skilled at bridging the gap between user needs and strategic goals, leveraging strong data analysis skills to translate complex datasets into actionable insights that drive business growth. Expertise spans requirement gathering, data visualization and reporting, process enhancement, and leading agile product development initiatives.

WORK EXPERIENCE

Senior Digital Experience & E-Commerce | **Learn Corporation** *Aug 2025 – Present*

- Managed and optimized shop.ignitebyondemand.com to deliver a seamless, user-focused shopping experience across devices.
- Collaborated with Marketing, Design, and Development teams to align website content, campaigns, and features with business goals.
- Monitored and analyzed site performance metrics (conversion rate, bounce rate, traffic sources) to identify improvement opportunities.
- Executed A/B testing and implemented UX/UI enhancements to boost engagement and sales.
- Applied Agile methodology to plan, prioritize, and deliver website improvements on time and within scope.

User Experience Designer | **Thairath Online** *Sep 2022 – Aug 2025*

- Led end-to-end Agile project (Ad Viewability Improvement) to optimize ad placement and page layout — achieved +12% increase in Active Viewable Impressions and +8% growth in ad revenue, directly improving monetization KPIs and exceeding Google Ad Manager benchmarks.
- Analyzed user engagement and digital marketing campaign performance (Impressions, CTR, Revenue, MAU) using GA4 and Looker Studio; developed data-backed strategies to balance user experience with business revenue objectives.
- Conducted competitor analysis and in-depth user research to redesign the Business & Economy section, increasing content engagement and advertising effectiveness for the target segment.
- Translated complex business requirements into wireframes and functional specifications; acted as liaison between SA, Dev, and Marketing teams to ensure on-time, aligned delivery.
- Established KPI tracking frameworks and presented data-driven insights and strategic proposals to management and cross-functional stakeholders.

Product Designer (UX/UI) | **AP (Thailand)** *May 2022 – Aug 2022*

- Optimized end-to-end customer flows and conducted UX/UI audits to evaluate digital platform effectiveness, identifying friction points that impacted Conversion Rate and user acquisition.
- Designed intuitive UI and promotional banners for fitfriend.co that contributed to measurable user acquisition growth and improved digital marketing campaign performance.

UX/UI Designer | **G-ABLE** *Jun 2021 – Nov 2021*

- Built real-time Power BI dashboards for the executive team, turning raw quarterly data into something actually readable and useful for decision-making.
- Improved business analysis reporting on byteanalysis.me by restructuring daily, weekly, and yearly reports based on what the marketing and sales teams said they actually needed.

UX/UI Designer | **Eatlab** *Jan 2021 – Apr 2021*

- Ran usability testing and customer interviews to define the right interaction models for the POS-integrated sales dashboard — designed the final output based on what came out of those sessions.
- Designed a restaurant sales report dashboard from POS data analysis, validated through customer interviews; operators used it to forecast sales performance with more confidence.

CORE COMPETENCIES & SKILLS

- **Product Strategy:** Product Strategy, Requirements Gathering & Analysis, User Story & Journey Mapping, Agile & Scrum, Product Leadership

- **UX/UI Design:** Design Thinking, User Research (Surveys, Interviews, Usability Testing, A/B Testing), Information Architecture, Wireframing & Prototyping (Figma)
